

James Dean Brown Dope Exotica 1

mixed + recorded on Radio X / X-Fade

The unique, enchanting "Dope Exotica" set is conveying music from most different sources of escapism into an intoxicating, tropical flow of 15 hours, 40 minutes, 14 seconds length. This mix from behind the mirrors and other dimensions suggests an exotic ambience that resembles the feeling of being stoned without having dropped any psychoactive substances. In the beginning of 2002 JDB started this musical project. After one and a half years of searching, compiling, playing, mixing tracks, rearranging tracklists, adding tunes etc. he completed the mission in September 2003, in the end having put 229 tracks in the mix - available on 12 CDs, 70+ minutes each. It has become a collection of 49 years of soothing, sometimes bizarre, nocturnal music from 1954-2003.
